EXPERIENCE

Freelance Front-End Developer

Developed responsive and intuitive web interfaces using Next.js, Redux, and Tailwind CSS

for various freelance projects.

Integrated RESTful APIs and MongoDB to create efficient data management solutions.

Collaborated closely with UX/UI designers and backend developers to deliver high-quality web applications.

PROJECTS

Palladium Garden Hall

An interactive website for a garden hall featuring navigation maps for easy access and accordion menus for an enhanced user experience. The gallery page showcases the venue's amenities effectively.

Project Link: Palladium Garden Hall

Technologies Used:

- React.js
- React Bootstrap
- react-leaflet

Coffee Shop E-Commerce Platform

A responsive website designed for coffee sales. It includes an online chat system for customer support, ticketing for issue resolution, and a secure admin panel for managing the site.

Technologies Used:

- Next.js
- CSS Modules
- MongoDB

Kala Chi E-Commerce Platform

A fully responsive e-commerce site with a custom design, featuring online chat, advanced product filtering, and easy search functionality. The site ensures excellent product accessibility and user experience.

Technologies Used:

- React.js
- React Bootstrap
- Sass
- CSS Modules
